Professional Experience

Front End Flutter Developer / Smart Things

August 2020 - September 2020, Remote

Integrated RESTful APIs to connect with backend services, enabling real-time data synchronization across multiple devices.

Junior Front End Developer / Favex

January 2021 - July 2021, Lagos

- Created responsive layouts and reusable components, enhancing the scalability and maintainability of applications.
- Conducted debugging and testing to ensure app functionality and compatibility across devices.

Senior Front End Developer / Sharp Pay

December 2021 - May 2022, Lagos

- Developed feature-rich mobile applications with intuitive interfaces and smooth animations, targeting both Android and iOS platforms.
- Optimized application performance by implementing best coding practices and conducting thorough testing, leading to a 25% increase in app responsiveness and load time.

Senior Front End Developer / Mate Round

January 2023 - August 2023, Ekiti

- Provide guidance and mentorship to junior developers, helping them grow their skills and understand best practices.
- Conduct detailed code reviews to ensure code quality, maintainability, and adherence to best practices and coding standards.
- Work closely with product managers, UI/UX designers, and backend developers to understand requirements and design optimal solutions.

Senior Front End Developer /Friendly

August 2024 - Till Date, Ekiti

- Design, develop, and maintain front-end features, ensuring they are robust, performant, and visually appealing.
- Collaborate with backend teams to ensure data protection policies are adhered to and that sensitive user information is secure.
